

Senior Full Stack Developer

Description

Job Overview: Our client is seeking a dedicated and skilled Senior Full Stack Developer for a full-time, on-site role in Cape Town. You will be at the heart of their team, contributing to the design, development, and maintenance of innovative software solutions.

Key Responsibilities:

- Develop and maintain web applications using SQL Server, C#, .NET, and ASP.NET MVC.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Ensure the performance, quality, and responsiveness of applications.
- Identify and correct bottlenecks and fix bugs.

Qualifications:

- Strong analytical and problem-solving abilities.
- Proven ability to work both independently and as part of a team.
- Excellent communication and interpersonal skills.
- Bachelor's or Master's degree in Computer Science or a related field.

Preferred Skills:

- Experience with cloud technologies like Windows Azure.
- Proficiency in architecture and design principles.
- Familiarity with front-end technologies such as JQuery, HTML, and CSS.
- Knowledge of UML and Agile/Scrum methodologies.
- Experience with Azure DevOps.
-

How to Apply: Please send a detailed CV with a skills matrix, copies of qualifications, and a recent payslip to info@headspaceglobal.co.za. We look forward to receiving your application!

Note: If you do not receive a response within 2 weeks of submitting your application, please consider your application unsuccessful.
