

Senior UX/UI Designer – Pretoria

Description

Job Title: Senior UX/UI Designer

Location: Pretoria, South Africa (Hybrid role)

Company Description:

A pioneering design and engineering consultancy, founded in 2004, dedicated to redefining the limits of technology and creativity. Known for delivering innovative software solutions and establishing enduring client partnerships, they tackle complex challenges and elevate user experiences. Their unwavering commitment to excellence and continuous improvement sets them apart in the industry.

Job Description:

The company is on the hunt for a visionary Senior UX/UI Designer to join their dynamic team. This hybrid role offers a blend of remote and on-site work in Pretoria. The ideal candidate will bring **6-10 years of UX/UI design expertise**, coupled with a **degree** in a related field. As the Senior UX/UI Designer, responsibilities include crafting and enhancing user experiences across diverse digital platforms, using cutting-edge tools and techniques to deliver seamless, visually captivating interfaces.

Key Responsibilities:

- Collaborate with cross-functional teams to gather and evaluate user requirements
- Develop and articulate comprehensive UX/UI design strategies
- Generate wireframes, prototypes, and high-fidelity mockups using ****Figma**** and other design tools
- Conduct user research and usability testing to uncover user needs and refine designs
- Present and pitch design concepts and prototypes to stakeholders
- Ensure design consistency and adherence to established design systems and brand guidelines
- Stay ahead of the curve with the latest design trends, tools, and technologies

Required Qualifications:

- Bachelor's or Master's degree in UX/UI Design, Graphic Design, Interaction Design, or a related field
- 6-10 years of experience in UX/UI design
- Mastery of ****Figma****, Adobe Illustrator, Adobe InDesign, Adobe Photoshop, Adobe XD, After Effects, AutoCAD, Axure RP, Sketch App, SketchUp, and SOLIDWORKS
- Deep understanding of Design Thinking, Design Systems, Information Architecture, and Interaction Design
- Experience with prototyping tools such as InVision and Rapid Prototyping techniques
- Proficiency in usability testing methods and user research
- Strong Critical Thinking, Creative Concept Design, and Strategic Thinking skills
